

26-Port PoE Switch with 24 PoE Ports and 2 Gigabit Combo Ports

OP-S24A2C

Shenzhen Optostar Optoelectronics Co., Ltd 2013. 06(Version 2)

Overview

This OP-S24A2C switch provides a network point for power supply and data transmission. All the 24 PoE ports can be connected with 10/100Mps quickly, and the uplink port is 1.25Gbps fiber interface, among which 1-24 ports can provide standard IEEE802.3af power supply. Due the advanced self-sensing algorithm supply power for IEEE802af terminal unit only, there is no need to worry about damaging proprietary PoE or non-PoE standard equipment. In addition, it will stop power supply when PoE devices are not connected. In short, The OP-S24A2C features simple and reliable design, automatic identification PoE requirements, duplex and high-speed.

This cost-effective OP-S24A2C provide network layout need to simplify wireless access point (AP) and IP-based surveillance cameras network cameras in order to install in commercial network and home network. The devices far away from power socket are very suitable for hanging on the wall or ceiling. PoE eliminates the need for connecting these devices to power socket. So it make more flexible for those difficult to connect with AC power socket, and cut down the installation cost. It is ideal choice for those want to deploy a small commercial network and home network that use wireless access point (AP) and IP-based surveillance cameras.

Prduct Features

- Can supply power to network surveillance cameras that without PoE function
- > 24x100Mbps auto-sensing RJ45 ports, 2x10/100/1000M combo ports
- Supports port auto-flip (Auto MDI/ MDIX)
- > Uplink port: 1.25Gbps SFP fiber interface
- Maximum PoE power: 440W (Port 1 to 24 Port)
- Maximum power per port: 15.4W
- Adopts store-and-forward architecture
- ➤ IEEE 802.3af power on up to 24 ports
- > Features with fanless, natural cooling, small, compact and quiet design, suitable for desktop or wall
- Built-in 1U rack power supply series, easy to place it into standard mounting brackets
