

## Fiber Optic Cable Patch Cord

LC-SC SM

Shenzhen Optostar Optoelectronics Co., Ltd

2011. 06 (Version 2)

## Overview

A patch cord can be split into three crucial components, the connector, the cable and the manufacturing process. These three areas all contribute to the performance of a patch cord, but above all the manufacturing process is the one that defines the performance of the assembly. And it can be combined any items, including angled (angle polish) SCA, MUA, STA, LCA, MPO Angled.
